OBJECTIVE

MCA student passionate about **full-stack and backend web development**, with hands-on experience in building responsive and user-focused web applications using **JavaScript, Node.js, Express.js, React.js, and MySQL**. **Strong problem-solving and communication skills** with a keen interest in developing efficient digital solutions and learning modern web technologies.

EDUCATION

MCA MET's Institute Of Engineering - Nashik — Current SGPA - 9.94
BCA Ashoka Center for Business and Computer Studies - Nashik — SGPA - 9.20

- Elite Member for 2 years, awarded official recognition badge.

SKILLS

- **Technical Skills:** JavaScript, Node.js, Express.js, REST APIs, React.js, MySQL, Python, Core Java, DBMS, OOP Concepts, DSA, Web Development (HTML, CSS, JavaScript), PHP.
- **Soft Skills:** Problem solving, communication, teamwork, adaptability, leadership skills, time management, and ability to work under pressure.
- **Tools:** Visual Studio Code (VSCode), Postman, GitHub, MySQL Workbench, Oracle, IntelliJ IDEA.

INTERNSHIP

TechSaksham – Microsoft / AICTE / SAP / Edunet Foundation

- Completed a 4-week AI-focused internship and developed a Python-based web application.
- Gained hands-on experience in web development, UI design, and AI-based project implementation.

ESTPL (Full Stack MERN Developer Intern) **(Jan 2026 – June 2026)**

- Working on full-stack web development using React.js, Node.js, Express.js, and MySQL.
- Building responsive web applications and integrating REST APIs for backend functionality.
- Collaborating with team members to debug issues, implement efficient solutions, and explore Generative AI features.

PROJECTS

Digital Menu Card Website

- Developed a full-stack digital menu system using React.js, Node.js, Express.js, Tailwind CSS, and MySQL.
- Built separate Admin (Owner, Manager, Waiter) and Diner panels with QR-based menu access.
- Added features like order placement, order tracking, feedback system, and AI assistant support.

RankItRight – Resume & Video Evaluator

- Created an AI-based system for resume ranking and soft-skill analysis using NLP and ML.
- Built using Python, HTML, CSS, and MySQL with a clean and responsive interface.

CampusEatS – Online Canteen Food Ordering For MET Campus

- Developed an online canteen ordering system to reduce campus queue and order-management issues.
- Built using HTML, CSS, JavaScript, Flask (Python), and MySQL.

CERTIFICATIONS

- Full Stack MERN Development Internship Certification
- Java Programming
- Python Programming

KEY ACHIEVEMENTS

- Published a research paper titled **"CampusEatS – Online Canteen Food Ordering for MET Campus"** in the **IRJIET Journal**.
- Presented a research paper on **"RankItRight – AI-Based Resume Ranking System"** at the **GSTE International Conference**.
- Participated in national-level hackathons, including **SIH** and **Mastek**.
